

Delivering business success through the continuous improvement of the capabilities of people and process

Supplier Readiness Assessment

HOW CAPABLE ARE YOUR SUPPLIERS TO MEET YOUR QCD REQUIREMENTS?

Recent studies have identified:

- Quality performance well below customer requirements
- Significant gaps in management capability
- 50% reduction in inventory
- Opportunities to increase capacity without investment in capital

THE IF SUPPLIER ASSESSMENT OFFER:

A structured programme combining proven assessment tools to meet your needs.

We will rapidly identify risks and opportunities within your suppliers.

We will provide recommendations in one or more of the following areas:

- Quality, Cost & Delivery Performance
- Customer/Supplier partnership
- Capacity Constraints
- Quality Systems & Processes
- Management Capability
- Tooling
- Technology
- Facilities
- Supply Chain Readiness

Delivering business success through the continuous improvement of the capabilities of people and process

THE DETAIL:

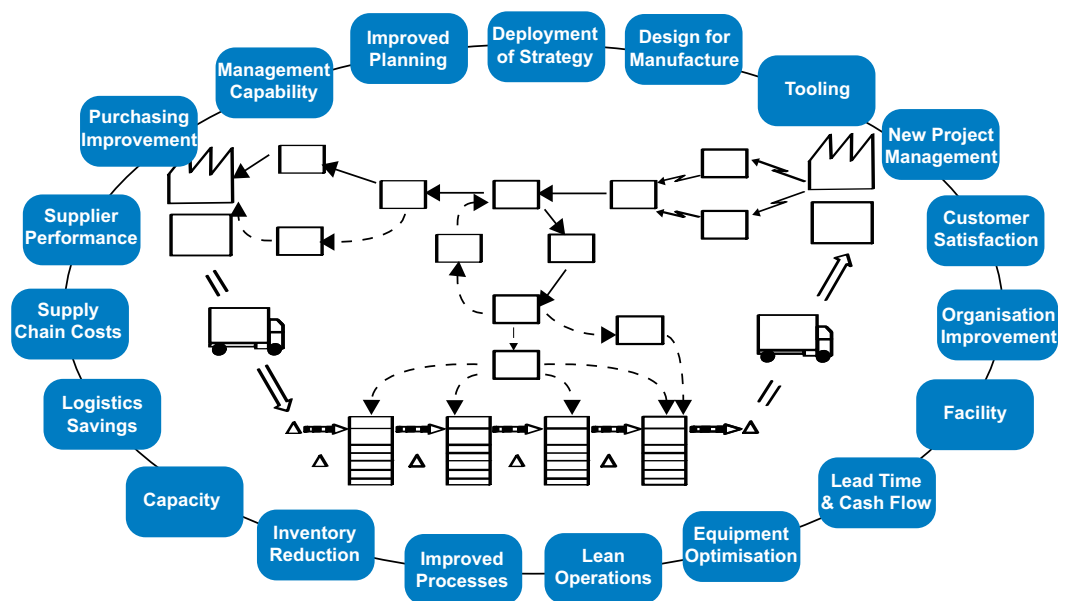

SCOPE:

We work with you to ensure project start of programme (SOP) commences on time and to budget. The key objectives being:

- Audit key production suppliers
- Early identification of risks
- Identify and plan improvement activity

ASSESSMENT:

We will use our invasive hands-on approach to understand the current situation and identify the risks within the supplier, the opportunities for improvement, the current and required QCD, performance, gaps and plans to improve. The assessment will focus in the areas below:

REPORT & FEEDBACK:

We report back on the key themes within your supplier, the current situation and production readiness, the opportunities for improvement, the potential financial benefit and our recommended improvement approach. We present the findings of the assessments to you and your management team for review, and work with you to prioritise, set targets and create an outline implementation plan.
